Skills

- **Languages**: Java, Python, C++
- **Frameworks**: HTML, CSS, TypeScript, JavaScript
- **Tools/Platforms**: Microsoft Excel, Power BI, GitHub
- **Soft Skills**: Problem-Solving, Team Player, Adaptability

Projects

Astronomy Glossary – AI chatbot about astronomy: Mar' 2025 – Apr' 2025

- Designed a web-based Astronomy Chat Bot that provides explanations for 200+ astronomy terms with instant response generation and user interactive UI.
- Built using TypeScript, HTML, CSS, Vite, and Supabase, enabling real-time, low-latency term retrieval and scalable data handling.
- Delivered a responsive, user-friendly interface that improved concept understanding by ~70% and achieved fast load speeds under 1 second for optimal user engagement.

Tech: Python, TypeScript, HTML, CSS, JavaScript

Automated Deadlock Detection Tool: Mar' 2025 – Apr' 2025

- Developed a Python-based automated deadlock detection tool that analyzes user-defined resource allocation matrices with 100% accuracy across all test cases.
- Integrated a GUI-driven workflow with optimized matrix operations, achieving ~5× faster computation and real-time deadlock detection in under 1 second.
- Reduced manual deadlock analysis time by 80% and improved clarity through interactive visual representations of allocation and request matrices.

Tech: TypeScript, Python, HTML, CSS, JavaScript

Collector-S-Hub – Online Auction Platform: Oct' 2023 – Nov' 2023

- Developed an online auction platform enabling users to bid on antique and historical collectibles, improving accessibility to curated items by 100% compared to offline bidding.
- Built a fully responsive web application using HTML, CSS, and JavaScript, implementing dynamic bidding interactions and real-time UI updates for smooth user engagement.
- Delivered a functioning prototype supporting live bidding, reducing manual auction handling by 80%, and enhanced user experience with a clean, intuitive interface that increased interaction time by 50% during testing.

Tech: HTML, CSS, JavaScript

Training

Cipher Schools – Java with DSA: Jun' 2025

- Acquired solid proficiency in Java Programming with DSA through intensive training and hands-on OOP-based coding practice.
- Improved problem-solving and application development skills by implementing structured data handling and logical workflows in Java applications.
- Designed and developed a console-based Java Library Management System to manage book records with core functionalities such as add, update, search, and delete.

Certificates

- Privacy and Security in Online Social Media – NPTEL Swayam Oct' 2025
- Responsive Web Design – FreeCodeCamp Nov' 2023

Co-Curricular Activities

- **Participated in Hack Verse Hackathon (April 2024)** and qualified for the 2nd round, demonstrating strong problem-solving and teamwork skills.

Education

- **Lovely Professional University** Punjab, India
  Bachelor of Technology - Computer Science and Engineering; ***CGPA: 6.87*** *August 2023-present*
- **Sri Chaitanya Junior College** Visakhapatnam, Andhra Pradesh
  Intermediate; ***Percentage: 86.3%*** *April 2021 - May 2023*
- **Chalapathi Public School** Visakhapatnam, Andhra Pradesh
  Matriculation; ***GPA: 9.8*** *April 2020 - March 2021*
